

Prineville, Madras, and Redmond Campuses
AUR Annual Report

Respectfully submitted by Suzie Kristensen and Jeremy Green April 2021

Section 6a: Measurement Tool and Timeline

The branch campuses have not been able to reach our AUR goals due to COVID-19. We submitted our original AUR at the end of spring term 2019 and COVID-19 began effecting our operations at the end of winter term 2020. The in-person classes have been extremely limited and no in-person student services (outside of what the onsite staff provide) have been offered since winter term 2020.

Section 7: Data

Data was gathered from Banner and Institutional Effectiveness. In a normal (non-COVID) year we would also report student services offerings, faculty opportunities, and business/industry contacts.

Section 8: Summary and Analysis

- Our outcomes have not been reached, but this is a result of COVID-19, not a reflection of the college or the branch campuses.
- Since many of our student services and course offerings have become available remotely, we will need to reevaluate the AUR outcomes once we return to normal operations.
