

College NOW

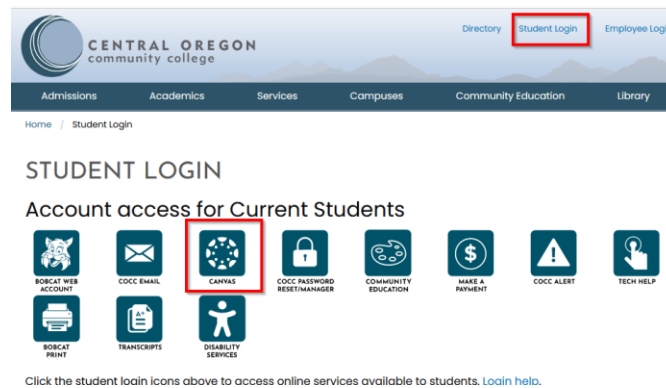

Accessing COCC's Tutoring Services

As a College Now student, you have access to COCC's tutoring services, both in-person and online. Tutoring is only available when [COCC courses are in session](#). This means tutoring may not be offered during the entirety of your College Now course as College Now courses are taught on a high school semester or trimester schedule which may not align with COCC's term dates.

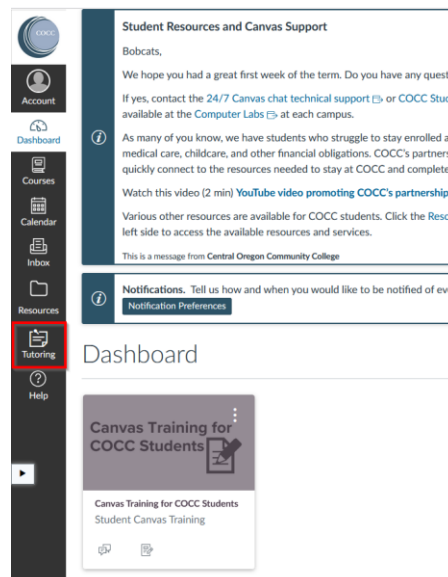

Before College Now registration opens, tutoring is only available in-person. You can simply let tutoring staff know you are a high school College Now student when signing-in. Please visit [COCC's tutoring website](#) for in-person tutoring schedules.

You can access online tutoring through your COCC Canvas account once you are registered in your College Now course. Below are instructions on how to access online tutoring through your COCC Canvas Account.

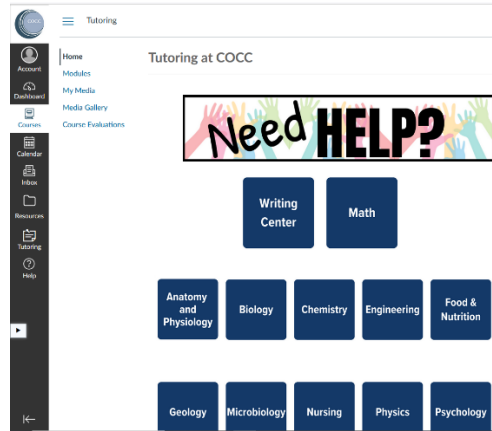

1. Once you are registered in a College Now course and have activated your COCC Bobcat Web Account, select "student login" from COCC's homepage and then click on the Canvas icon. Use your COCC email address and the password you selected when you activated your account to login.

2. In Canvas select "Tutoring" on the left navigation.

3. Select the subject area you would like to receive tutoring services

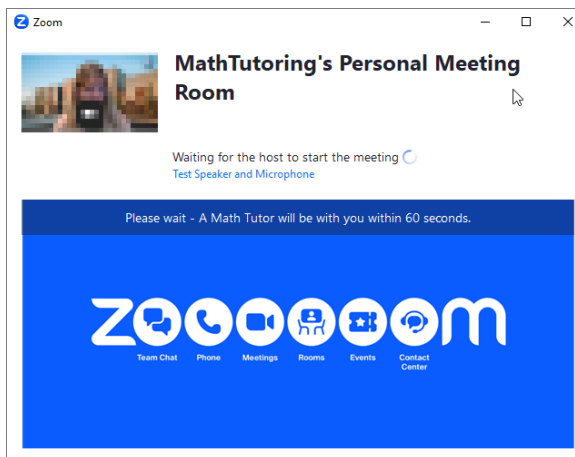

4. For online tutoring, view the zoom hours listed and click on the Zoom link which will connect you to tutor.

COCC Math Tutoring Hours
